Sarah – I agree with Jim that this generally looks good and is consistent with our conversations with R10 over past few days. Note – you mentioned that John was interested in adding to the agenda a discussion on outreach with other stakeholders. If we are lucky enough to get that far in the conversation, I think that could be part of the “path forward” discussion. I don’t think we need to call that out as a specific agenda item. Cheers

**Subject:** 8/28 draft agenda

Here is a draft agenda for our 8/28 meeting for your review. Perhaps we can finalize it during our Thursday meeting. Thanks

**Pend Oreille River Temperature TMDL Status Meeting**

**Seattle, WA • August 28, 2013**

**EPA, Room 12B or 15U**

-

Draft Agenda:

-

- Introductions
- Statement of Meeting Objectives and Background by EPA
- Brief statements by Tribe, Ecology if desired
- EPA Presentation of Technical Issues: CFA, Time-lag, Border condition- – including EPA analyses provided to Ecology and the Tribe on **date** and **date**, respectively [we should consider **whether we want to break these out in any greater specificity**].
- Discussion and feedback on technical issues from Tribe and Ecology

- Identification of potential solutions and path forward
- Next steps
